TARUN SHARMA

(+91)-9716144930
Tarun.softengg@gmail.com

Professional Summary

- About 3 years of experience in development , designing and implementing solution in using **J2SE** and J2EE with web services
- Hands-on experience with **Web Services** and SOA implementation.
- Experience in working on implementing Hibernate and struts frameworks with Java Web applications.
- Experience in working on **installation, development, Administrating** and **deployment** of J2EE Web service based application
- Experience in developing web service with different JAX-WS, JAX-RS **API.**
- Knowledge in UNIX scripting with UNIX scripting and system administration.
- Strong Analytical and Teamwork skills**,** Excellent communication, interpersonal, Self-motivated

Employment

Application Developer-I   **United Health Group**   **Oct 2014 – Present**

UHG: - Developing and supporting the development of Integrated Eligibility Health care project for supporting US government health care operation in multiple states (scrum agile project).
Supported Following functionality

- ➢ Supporting Front UI based on angular JS and front end Ajax Spring MVC calls.
- ➢ Developing and supporting for the development of spring and Hibernate related backend work.
- ➢ Worked on several web services being used in application for processing client request and processing them with MUEL ESB.
- ➢ Developing REST & SOAP based services using CFX to support backend synchronous and Asynchronous calls.
- ➢ Working with Maven, Rally (Agile tool) and JBoss middleware to execute the project.
- ➢ Currently working with UI Framework like Angular-Bootstrap, Angular-UI and JQuery.

India (July 2012 - Present)

Software Developer   **Amdocs**   **Jul 2012 – oct-14**

Amdocs DVCI Developed and supported of CBS-Billing Critical ATT & T application for south East billing tool being used by more than 40,000 Customer care representative in South East Region USA ,
India (July 2012 - Present)
Supported Following functionality

- ➢ Supported enterprise application framework SOA based application running on web services.
- ➢ .Net based front end of application is supported and provided functional input to clients.
- ➢ Developed and supported Fusion and MQ based Queue framework for supporting clients request and for Bill Load in IBM DB2 servers.
- ➢ Worked with Business transaction processing in backend Being Done with EJB-2.0
- ➢ Worked on several web services being used in application for processing client request which are based on JAX-RPC/WS and being used with asynchronous and synchronous request through MQ and ATT n T Fusion queues.

- ➢ Worked with ant , maven build to deploy code during project release
- ➢ Worked with major release and took all responsibilities including communication with clients and provide them successful deployments

Team Size – 3, Tools and skill – RAD, j2EE-Web service , JAX-WS , Unix , EJB 2.0 , Unix scripting

Software Developer

Application Developer DVCI India (Jan 2013 – Jul-2014)
- ➢ Worked on Amdocs internal project based on J2EE frameworks and technologies.
- ➢ Worked on creating Buddy portal application that can be used for any organization for new joiner and HR interactions and to get all required information to get familiar with organization structure and different essentials.
- ➢ Team Size – Internal Team , Tools and skill – Spring 3.0 , struts2.0+Hibernate , IBM DB2

IBM Lab   **Intern at IBM Lab**   **Jan 2010 – Jul-2012**

Application Developer (Jan 2010 – Jul-2012)
- ➢ Worked on developing Different project based on J2EE frameworks and technologies.
- ➢ Worked on creating Java Web Application using JSF framework which can be used for any organization for biometric authentication/Card punch and different module related to employee attendance management
- ➢ Developed "Ecops" , "Indian-Wildlife "project for TGMC IBM challenge during 2010-12 based on J2EE, JSF, JPA, DB2 server.
- ➢ All application developed Using IBM Rational technologies with DB2 as DB server.

Team Size – Individual , Tools and skill – RAD, DB2-Web service , EJB 3.0 , JPA ,JSF

Certification and Awards   **May-12 – present**

- • Certified in IBM-DB2 database management training
- • Certified in IBM rational training based on rational application developer
- • Certified in Oracle certification for java SE5 programmer.
- • Worked as Microsoft Student Partner for 2011-12 during graduation.
- • In Amdocs rewarded for developing android app for internal use a transport application.
- • I was recognized among my team for successful delivery of deployments and release received spot awards and Team meeting appreciation.
- • Working in Amdocs I cleared internal technical certification based on java Unix SQL and JAVA WEB JSP/servlet

Languages and Technologies

- • Technologies :- j2SE, j2EE, EJB, MVC framework Struts Hibernate , Mobile Development , Angular JS Node , Android+ Window Mobile development , Web service JAX-WS, JAX-RS, GIT, MAVEN & ANT Build, SVN & Itrack/Jira , Web development .
- • Software Packages : Eclipse, open source JBoss tools/plugins , Net beans , Visual Studio 2012 ,IBM Rational tool RAD , DB2 , WAS , Web Logic

Education

Jaipur, RJ	**Swami Keshvanand Institute of Technology , Jaipur**	**July 2008 – June 2012**

- B.Tech from   Degree (B.Tech in computer science and Technology)
- Aggregate Score: - **77 %.**

Jaipur, RJ	**MHS, Jaipur (R.B.S.E)**	**April 2005 – March 2007**

- Intermediate in Science
- Score - 82%

Jaipur, RJ	**RPS , Jaipur**	**March 2005**

- Cleared 10th from Rawat public school
- Score - 84%

Additional Experience

- Developed internal projects for Internal Amdocs use based on Hibernate Struts J2EE Technology.
- I have worked with web sphere and web logic application server during project development
- I have done Amdocs internal certification on UNIX, java, SQL, JSP servlet.
- I have presented and developed kaizen idea of application web service monitoring tool.
- I have developed several Android application/Game one application for Amdocs internal Use.
- Organized DSY-12 (Dreamspark event) as technical speaker for different Microsoft Technologies.
- Working in Amdocs I participated in donation drive , cultural activity and some team events as organizer and also given Technical sessions and represented ideas in Kaizen club and also developed and presented innovation ideas for internal Amdocs use .
